Greg Boyd elected to Maine MEP board of directors

AUGUSTA, Me. – Greg Boyd has been elected to the Maine Manufacturing Extension Partnership (Maine MEP) board of directors, the business and technical assistance program announced today. Boyd is president and CEO of Alternative Manufacturing, Inc. (AMI) located in Winthrop, Maine. AMI provides a wide range of electronics manufacturing and support services to original equipment manufacturers across a diverse range of high-tech industries throughout the Northeastern U.S. and Canada.

Founded in 1989 and one hundred percent employee owned, AMI’s Maine based facilities and workforce of dedicated employee-owners enable an operation that responds and adapts quickly to customer needs for new product introduction, engineering design changes and fulfillment. AMI offers transparent, competitive pricing and builds partnerships with customers that contribute to long-term success. The company’s work can be found worldwide in building security systems, solar energy equipment, aircraft instrumentation, industrial laser controls, LED lighting, industrial weather stations, and a host of emerging products from high-tech startups.

An active Rotarian, Greg serves on the Kennebec Valley United Way Board and the Central/Western Workforce Development Board.

“The Maine MEP and the businesses it serves will greatly benefit from the entrepreneurial and quality management expertise that Greg Boyd brings to the center’s board,” said Muriel Mosher, president of the Maine MEP.

About Maine MEP

The Maine MEP is a program of the Maine Department of Economic and Community Development and an affiliate of the National Institute of Standards and Technology (NIST) under the U.S. Department of Commerce. The national MEP system is a network of manufacturing extension centers that provide business and technical assistance to smaller manufacturers in all 50 states, the District of Columbia and Puerto Rico. Through MEP, manufacturers have access to more than 2,000 manufacturing and business professionals whose job is to help firms make changes that lead to greater productivity, increased profits and enhanced global competitiveness. For information on the Maine MEP program, please visit www.mainemep.org, or phone 207-623-0680.
